

NUCLEAR COMPLIMENT
STEAM & ENERGY

$\frac{PV}{T}$ is a CONSTANT
BOYLES LAW

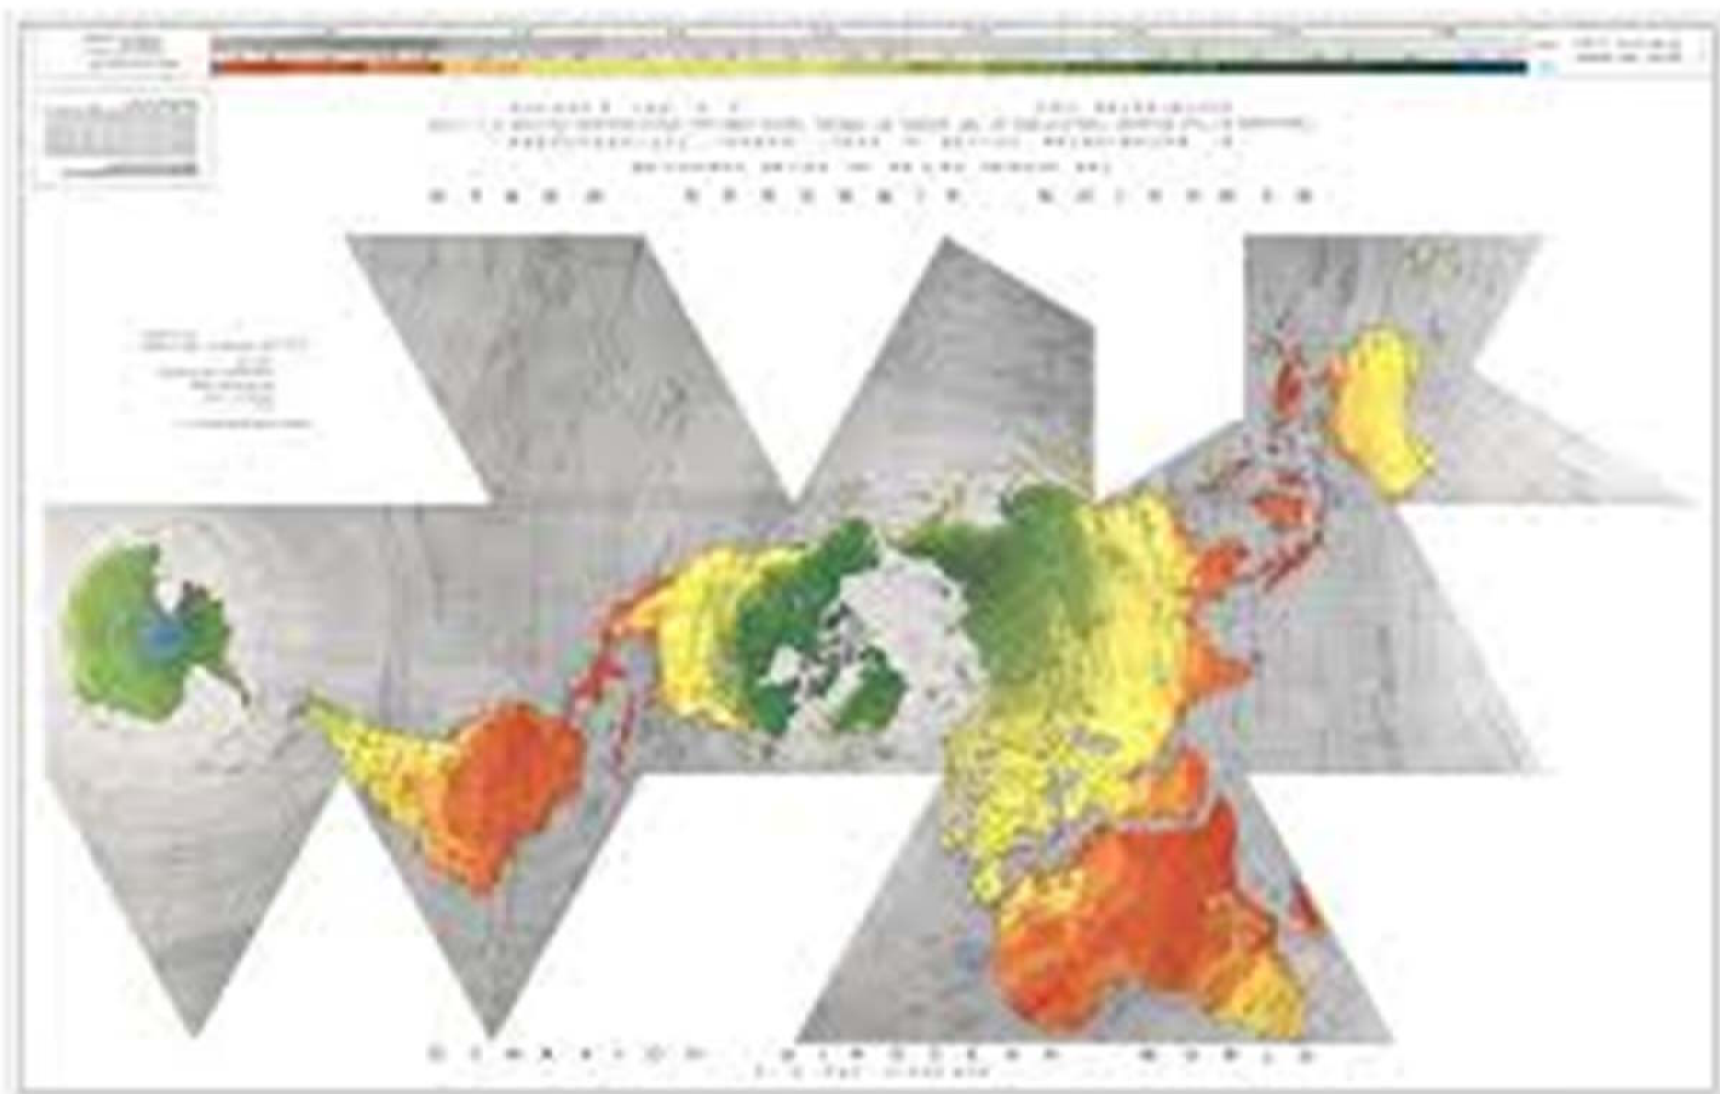

$P_0 \uparrow V_0 / T_0 \uparrow$
Pressure goes up
temp goes up

Source of CO₂

- CO₂ / Purged
- CO₂ / Air
- Methane / Low Fuel / Low
- CO₂ Concrete / burning of Limestone

"The Global Energy Grid is the World Game's highest priority objective."

Dr. B. Bradenbacher Puffer

Linking the renewable energy resources around the world
will reduce global pollution, population growth, world hunger and
increase living standards, international trade, cooperation and world peace.

"A global energy network
includes renewable sources of
energy and a network of energy
transmission lines and a network of
energy storage facilities."

Dr. B. Bradenbacher Puffer
President, Global Energy Grid

"The global energy network
will be a network of energy
transmission lines and a network
of energy storage facilities."

Dr. B. Bradenbacher Puffer
President, Global Energy Grid

Each dot represents 1% of humanity (60 million people)
and the color represents the following energy categories:

- Red: Less than 100,000 people - Regions in Development
- Yellow: 100,000 - 1,000,000 people - Regions in Transition
- Green: More than 1,000,000 people - Developed Regions

"I have informed closely the work of Global Energy Network, International
Energy Agency, and that the project to be one of the most important
to further the cause of environmental protection and sustainable development."

Barack Obama, United Nations Environmental Program
