## Conference Keynote Speaker Invitation

April 24, 2017

**Prof. Jont Allen**

Electrical and Computer Engineering  
2061 Beckman Institute MC 251  
University of Illinois  
Urbana, Il 61801

Dear Professor Allen,

Aloha!

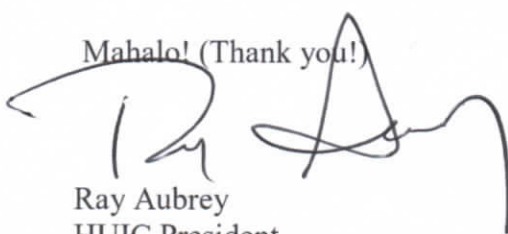

The Hawaii University International Conference on Science, Technology, Engineering, Arts, Mathematics and Education is pleased to extend an invitation to you to be the **Keynote Speaker** for the **2017 STEM/STEAM & Education Conference** to be held from June 8 to June 10, 2017 in Honolulu, Hawaii at the Prince Waikiki (Hawaii Prince Hotel Waikiki).

We are proud to present and provide an excellent conference here in Honolulu, O'ahu, Hawaii. The Conference has established a reputation as a focal point for new ideas and new practices in research and teaching as well as having numerous papers, workshops and colloquium presentations by teachers and researchers, providing spaces for dialogue and for the publication of new knowledge in the academic fields. The conference supports the work of scholars who are building upon settled traditions in their teaching, learning and research while at the same time setting a renewed agenda for the future.

The conference program, hotel and airlines reservation information are available on our website at <http://www.huichawaii.org>

We are looking forward to meeting you at the conference. Certainly with your participation and support as our Keynote Speaker, the 2017 Science, Technology, Engineering, Arts, Mathematics and Education Conference will be a great success.

Mahalo! (Thank you!)

  
Ray Aubrey  
HUIC President
